Art Unit: 3662

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Gloersen et al ('259).

With respect to newly-amended independent claim 1, Gloersen et al ('259) plainly shows a method of steering a missile by discharging plasma over a limited sector of the outer surface of the nose and in a direction Y as claimed. Please note Figure 2 and column 1, lines 1-29 of Gloersen et al ('259). In column 1 of Gloersen et al ('259), it is stated that the plasma propulsion of that invention is used for "spacecraft attitude control, orbit correction, orbit transfer or the like." Please note in Figure 2 of Gloersen et al ('259) that the plasma discharges are in the nose area of the missile as claimed. The further limitations of dependent claims 2-4 are fully met by Gloersen et al ('259).

The remarks with respect to claims 5-8 are substantially those given with respect to claims 1-4 above.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3662

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
